## SUMMARY

---

Detail-oriented Software Engineer with a strong foundation in computer science and a passion for problem-solving. Proficient in multiple programming languages and experienced in developing efficient, scalable solutions for complex projects. I have a keen ability to learn quickly, adapt to new technologies, and contribute effectively in team settings. Committed to continuous growth and dedicated to delivering high-quality results that exceed expectations.

## EXPERIENCE

---

### Infinity Code Studios

2022-Present

Full Stack Developer | Bakersfield, CA

- Design and develop software.
- Data Security
- Implement and optimize databases
- Test and debug software.

### Business Lead/Job Coach

2018 - Present

New Options Employment Services | Bakersfield, CA

Manage 20+ client's business records and financials on a daily basis. Help develop, maintain, and run businesses for people with disabilities.

#### Key Accomplishments:

- Designed and developed a database to store user-specific tasks and account information.
- Created an intelligent task prioritization algorithm that considered factors such as task deadlines and urgency levels to help users focus on critical tasks.
- Conducted rigorous testing to ensure the application's reliability and security.

### Contractor

2018

Anderson Group International | Bakersfield, CA

- Utilized data analysis and visualization tools to present financial information effectively to stakeholders.
- Collaborated with developers to integrate financial and project management modules into existing software systems, improving overall project efficiency.
- Leveraged software solutions to evaluate and document damage assessments after natural disasters.
